

AA,AG@helix.ends: large subunit ribosomal RNA - 3' half

- invariant
- exchange (in at least one subalignment)
- * interesting pairing
- * extremely interesting pairing

Escherichia coli (J01695)

1. Bacteria 2. Proteobacteria 3. gamma subdivision
 4. Enterobacteriaceae and related symbionts
 5. Enterobacteriaceae 6. *Escherichia*
- Model Version: November 1999
 Motif Diagram Version: June 2000
